VER & NORWOOD is now dissolved, and the subscriber offers his polite bow to the citizens of Louisville. The very kind treatment and the liberal patronage he has received since he has been a citizen of the 
city induces him to ask a continuance of the favors he 
has had at their hands; and in doing so, he pledges 
himself that these who favor him with their patronage 
shall be satisfied. He is determined to work for reputation as well as money. He has a good lot of No.1 
Brick on hand for those wishing to commone building 
early, and shall keep on hand an assortment of Brick at 
all times not inferior to any in the market. He hopes, 
by strict attention to business and a faithful regard to 
honesty and integrity, to be liberally patronized. His 
yard is on the corner of Broadway and Shelby streets,

Plan of the Campaign-Object of the

In our Friday's issue we adverted to the discord and confusion that reigned in the two grand assemblages of Know-Nothings which came off at Philadelphia on the 18th and 22d ultimo, and to the finale of their deliberations. In any other body than a Know-Nothing National Convention, such freaks and inconsistencies as were there witnessed: such sudden and facile political transmutations would be astonishing and altegether unaccountathis: that the anti-slavery men should have the platform, and the pro-clavery men the candidates to stand upon it: and it remains to be seen which has got the better of the bargain. One thing is m st certain-if the Know-Nothing party had any chance before to lead the opposition to the Democracy, it has none now. A large majority of the Order in the North will not be satisfied with out both a platform and candidates to suit them The majority of the seceding delegates from the North met arter the nomination was made, and recommended the assembig of a Nor.h America. Convention at New York next June, to nominate a Presidential ticke, while an inflaential portion of them avowed, at once, their determination to with inte and not with the Black Republicans-the bone and sinew, the head and front, of the opposition-between whom and the Democracy the great impending battle is to be fought, on the result o W .ich depends the mantenance of the constitutronair gats of the South and the salvation of the

The editor of the Cincinnati Gazette concedes the advantage in the bargain to the Southern delegates, notwithstanding the twelith section was struck from under them. Speaking of the un-Buitatloness of the ticket for the North, he says : The patform is of no importance, compared with th

This whole business at Philadelphia looks very like a farce or sham. Clearly, Know-Nothingism, as it now presents itself under the conduct of its leaders North and South, is but an ally and coworker with the great anti-slavery faction in the Free States, whatever may be the views and feelings of the mass of the Order in the Slave States

vember next, it will be beaten by the Freesoil than to divide the South and endanger her dearest Black Republican organization of the North; but interests. by no possibility can this be done without the aid and co-operation of the so-called American party. It is now evident that three tickets will be before the people, viz : the Democratic, the Black Republican, and the American er Know-Nothing. That either of the two last named can succeed in the Electoral College, no one is so ignorant and stultified as to believe for one moment. What, then, is the calculation on the part of the allies? It is to throw the election of President and Vice President into Congress, where the candidate of the Black Reputlicans for Speaker has just carried off and dear—the Constitution of the Union and the the palm against the combined vote of the Democrats and Southern Know-Nothings. And this avowedly, the plan of the allied parties in the Presidential campaign of 1856. Here it is. We quote from a leading editorial in the Cincinnati Gazette, of the 27th ult., a prominent and most infigential paper, the editor a "Republican Ameri-

COLLISION BETWEEN THE Henry Lewis and E. Howard! The Lewis a Total Wreck!

MANY LIVES LOST !

Yesterday morning intelligence of a terrible teamboat disaster reached our city. We took some pains to gather, from all sources within our reach, as many particulars as possible. The fol-lowing are the facts, as far as we could obtain the Constitution of the Danubian Principality

On Saturday morning, about four o'clock, the steamers Henry Lewis, bound for New Orleans, and the E. Howard, upward bound, came in colli the Porte, will be sent to Paris, in order that they sion at the head of Anderson's bar, in the Ohio iver, some ten miles below Hawesville. The Henry Lewis was loaded down to the guards, and was covered with freight upon the hurricane deck. When the boats struck, the cabin of the Lewis, from the weight above, fell in and settled down upon the boiler deck. It is supposed that most of the firemen, deck hands, and persons on the lower deck, perished. We are told that when the boat left Louisville there were twenty-two cabin passengers on board. How many of them escaped is unknown. It is generally believed that some of them, on the side of the boat which careened over, must have been drowned in their berths, while others escaped from the cabin.

We learn that the second steward and second cook are among the drowned.

One man whose life was saved, had his foot bro ken, and was otherwise badly wounded by the crush of the cabin.

The books of the boat and all are sunk together-hence, the names of passengers are not known. The officers-at least the captain and clerk-are safe.

We conversed with a young man, wno was in the cabin at the time of the collision. He says he staid on board until he saw that the boat was taking fire, when he jumped overboard, hoping as first to swim to the E. Howard, but afterwards feared that the waves from that boat would drown nim, turned about and swam with the current uncit he got hold of a tarrel, and after floating half a mile was picked up by some men in a skiff. H says several others swam from the cabin-how they fared, whether they escaped to shore or were drowned, he could not tell.

Accounts differ widely as to the number sup p) ed to be lost. Some estimate the number not to exceed from fifteen to twenty, while others ins st that thirty or forty perished. We shall hope t) learn the particulars in a few days.

The Henry Lewis is reported a total wreck, and has settled down to her hurricane roof as it lies in the water. Much freight floated off, and the Bultimore and Wm. Garvin report having met bales and barrels for several miles below.

The E. Howard is scarcely damaged at all. She now lies at Portland, and we did not observe any injury whatever, except that the jackstaff was knocked down.

Where the censure lies for this collision in a broad full river, the proper authorities must deternine. It is a terrible calamity, and the very uncertainty as to the fate of the unknown passengers on board makes it still more heart-rending.

MRS. MACREADY AND CAMILLE URSO .- Th grand complimentary testimonial to Mrs. Macrealy and Camillo Urso, tendered by the lovers of art n the city, will take place this evening, at Mozare Hall. We have no doubt it will prove a most deightful festival to all who go. The lover of dranatic poetry cannot fail to be pleased, for Mrs Macready will recite from the choicest works of ome of the best authors. One who has never neard Mrs. Macready in recitation can form no dea of the charming manner in which she renders entire scenes, presenting each different characte n a truly artistic style. Her voice is very musi al, a deep, rich and elegant contralto, enabling her to give with great propriety of tone both make and female characters. Then her enuncia so distinct, her intonations so agreeable, and her action so graceful, that it would be almost imposible not to be delighted with her.

She far excels all who have been here for years, being very greatly improved since her visit some two years ago.

Mr. Abel as a pianoist ranks deservedly very high, and duetts between Camille and himself will be enrapturing. But the evening's entertainment will be varied by songs and instrumental music rom some of the best talent in the city-musiians whose names are in themselves a host of strength. In view of such a treat, we do not think it necessary to urge an attendance; for we have no other expectation than to see the Hall crowded to its utmost capacity. Necessaries of Life.

Flour, Whisky, and Tobacco have long been regarded nenecessaries of life-but it is a mistake. We can't buy Flour-that is, Daguerreoty pists can't-for it is too lear; the temperance men wont let us drink Whisky, and the Tobacco crop is a failure. What we can't get it splain we must do without, and what we can do without is not a necessary. The provert, then, is a false-100d. To those who are subject to a sick headache, one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound, it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagate necomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can, and enough of it.

From Judge Wm. V. Loving, (The American Candidate for Governor). I have seen several of Dr. Price's patients; amongs others, Mr. 8 H. Dickerson, of Monroe co. At the time I saw him he was discussed from head to foot. The left side of his face and neck was greatly enlarged and swolen. All of the left side of his neck, breas, and right shoulder were a mass of filthy discussed as a same and running sores. As he would work his arms, the air would escape from deep ulcers under his collar bones, causing filthy matter and blood to bubble out. The use of the probe had proved that some of these ulcers extended by matter and blook to buse the late use of buch had proved that some of these uloers extende to the hollow of the body. The great value of this work has been sudiciently proved by its adoption as a text book by the various in the province of the city of New York.

RECOMMENDATIONS OF THE PRESS.

This work will be found to supply the dealer in liquors, wines, vinegar, &c., with a thorough teacher and guide amid all the varied and intricate processes of this business.—N. O. Picayuns. quors, wines, vinegar, &c., with a thorough teacher and guide amid all the varied and intricate processes of this business.—N. O. Picuyune.

It were a work of supererogation to praise a book of Mons. Lacour's writing. The volume before us is remarkable for its completeness and the exact practical directions which it gives. Old manufacturers will find ail of the old modes entirely superseded. The use of the old formulas would appear as the "foam of folly' in the presence of the new ones suggested in this work. One of the principal objects appears to be to avoid, as far as possible, the use of appearatus or expensive (to the operator) appliances of any kind in the manufacture of liquors, a.c.—New York Times.

This volume contains the art of preparing and put sing up the whole list of drinkables, from a choice pipe of thard Dupuy, of the vintage of 1795, to a simple and economical manner of making cider without apples by fermentation. A friend has applied the recipe tor converting 25 gallons of whisky into 40 gallons with the most satisfactory results. The latter quality does not possess an equal amount of intogleating properties to the former, though the 40 gallons was of a match inter color, taste, and dor—New York Mechanic.

This much talked of book is athand. It contains a mass of information that is perfectly astonishing, and could only have been acquired from actual observation. If you wish to see ingenuity applied, look in a copy of Lacour on Liquor. Practicabnity appears to have been the design of the author. No delays are necessary to ascertain the results of an application of a recipe. We speak from actuallobservation. Prakt. Sun.

This work will revolutionize the presentityle of manufacturing liquors.—New York Herald.

LACOUL'S CONCENTRATED ACID will, in five warset. Sy the use of Lacour's Concentrate's Acia, Vinegar can be made for one dollar and sixty cents per barrel.

FUR MAKING LIQUORS, Lacour's Oils require no preparation—cally pouring the Oil into the Whisky and shake well. The L'quids thus made will have a fine natural aroma—a full, rich, oily taste—a beautiful transparent color and a tine bead. Lacour's Oils exert three distinct properties in converting common Whisky to Brandy, Gin, &c. The first property combines with and subsides in the form of Floculent particles the whole of the grain oil, (Amylic Alcohol.) The whisky is thus deprived of that peculiar irritating and burning taste, and becomes a neutral spirit; the second property consists in an oily mucilaginous taste imparted to the Liquor, which remeders it mellow, and imparts an appearance of great age; the third property is exhibited in the rich, vinous, nuty odor that is imparted to the Liquor, which renders distinction from the Genuine Brands impossible.

Ly These Oils are put up in quart bottles, each bot the contains suthcient Oil for making 300 gallons of liquor. Full and comprehens redirections accompany the bottles. Price, 22 per bottle.

Ly One bottle of these Oils (five in number) will be securely packed and snipped (with bill of fading) free of charge, to any part of the country, upon the receipt of \$10, to the address of P. LACOUR, ladded Mew Orleans.
